Fall 2001

Guidelines for All Assignments

Assignments are extremely important. By completing homework and project assignments you will learn key concepts and discover new ideas. This is achieved by challenging yourself and attacking numerous problems.

Read the Following Rules for Assignments Carefully
(These Rules will be Strictly Enforced)

1. To be accepted for credit each assignment MUST have a cover page displaying the following information:
   - Your name.
   - Course, Assignment type and number (e.g., CS 387 Homework #3 or CS 361 Homework #2).
   - Due Date of the assignment (e.g., September 12, 2002)

2. Your assignment MUST be stapled or bound to be accepted for credit.

3. Your assignment must be typed.

4. All assignments must be submitted on the due date during the first 10 minutes of class. If you are unable to attend class, you may submit your assignment early to your professor. If you unexpectedly missed class, see the professor.

5. Late assignments will be accepted during the class period. In this case the assignment must include the date actually submitted. After three days an assignment will not be accepted.

6. It is much better to submit a partially completed assignment than to submit nothing at all.

7. All assignments must be neat and legible. No hand written work will be accepted for components of an assignment that is

8. You are expected to complete all of the assignments in this course. Missing assignment grades will affect your final grade.

9. You must show all work and explain how you arrived at your answers. Your approach to solving a problem affects your answer. When you are unable to solve a problem, try to make some progress and explain why you were stuck. Do NOT leave a blank!

10. It is expected that the homeworks be written up individually. Students are encouraged to discuss the intellectual aspects of the assignment with one another. However, each individual is responsible for understanding the solution in his/her own words. All students are expected to submit original work. Students who submit suspiciously similar assignments will receive no grade. More severe penalties may be applied.

11. All programming assignments require that you submit a running and tested program. Your code must run correctly.

12. Solutions to assignments may be posted in the Blackboard system the day after the due date. Grades will be posted in the Blackboard system.
